**DETAILED ACTION**

1. The Supplemental Amendment filed on August 25, 2006, has been entered and acknowledged by the Examiner.

***Allowable Subject Matter***

2. Claims 1-5, 7-12, 14 and 15 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding to independent claim 1, prior art of record taken alone or in combination fails to teach or suggest a method for fabricating a field emission display, comprising: depositing an emitter surface treatment agent on the substrate to cover the emitter after forming the emitter hardening the emitter surface treatment agent; wherein the emitter surface treatment agent is hardened by a treat-treatment process and removing the hardened emitter surface treatment agent from the substrate for exposing the carbon-based material contained in the emitter in combination with other claimed features of the present claimed invention.

Regarding to dependent claims 2-5 and 7-9, are allowable because of the dependency upon the allowable independent claim 1.

Regarding to independent claim 10, prior art of record taken alone or in combination fails to teach or suggest a method for forming a carbon-based emitter,

comprising: heating the surface treatment agent for forming a treatment film; wherein the heating of the surface treatment agent is to a temperature of about 90 °C; and removing at least a portion of the treatment film.

Regarding to dependent claims 11, 12, 14 and 15, are allowable because of the dependency upon the allowable independent claim 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
